About Savannah Your group will have the opportunity to do hands-on work projects for part of the week and partner with local ministries and nonprofit organizations that serve seniors, children, and those experiencing homelessness. In the evenings, you'll get to have dinner and swim at Tybee Island, learn about historic injustices by touring a church involved with the underground railroad, engage in the historic Riverwalk and other tourist options in Savannah, and end the week with a cookout celebration. YouthWorks has partnered with this community since 2000.

- Serve through painting, cleaning, helping with yard work or doing other simple work projects
- Partner with local organizations to meet ongoing needs in the community.

Students may serve all or part of the week at a food shelf, clothing distribution center, soup kitchen, children's program or elder care facility.
